# SCBA

The new AirHawk II Air Mask is a lightweight, durable, and economical SCBA suited to meet the demanding requirements for many industrial respiratory hazards including IDLH (immediately dangerous to life or health) applications. This SCBA can be set up to meet any budget through low cost configurations, while offering users many new choices and accessories not available with any other air mask. The AirHawk II SCBA is the SCBA of choice for HVAC and commercial building applications including: mechanical rooms, industrial refrigeration where ammonia is used, building automation, laboratory, fire and security, cold storage, solvent cleaning stations and chiller room applications and virtually any application requiring NIOSH approvals.
